If you are looking for a Free Android Music Player then download this best Multimedia Player for Android. We also have a Free Music Manager for Android Apps. It's a similar solution for managing a local music library on Android devices. DJ Music Editor Remixed is a full featured music editor app that has the ability to upload your songs straight to Fruity Loops, Mixamo, Clips, and Soundcloud. The "remixed" functionality allows you to make new music by changing music structures such as chords, rhythm, vocals, drums, bass, instruments, and melodies. Add effects to your music using the "EQ" and "Compressor" plugins along with a the "SFX" (Sound Effects) plugin. One of the most important ways to make a song better is to add or remove vocals. The Dual-Vocal Mode allows you to easily transfer your vocals from one song to another by separating them into two tracks. There are also several different ways to adjust the lyrics to your song including the Melody function and Lyrics function. An in-app settings menu allows you to easily adjust audio levels. With DJ Music Editor Remixed you can export songs in a variety of formats for use on most devices. In addition, you can use audio syncing to sync audio with other programs by exporting in Kontakt, Reaktor, or Logic. The main menu allows you to navigate through the various features available in DJ Music Editor Remixed. You can use the main menu to: - Manage all of your songs. - Play any one song from any list. - Play a song and transfer it to another list. - Play a song in the "Remixed" mode. - View the app's settings menu.
